Grapplers want place in JM fans' hearts

Wrestlers: a group of hard-working, often starved, Muscular, talented males. Throughout the season upcoming meets cancelled out many a meal for this dedicated bunch. Even though they often felt a "little weak" in the stomach, the grapplers pulled through many an exasperating match. Endurance and strategy are in the heart of each Rocket wrestler and, although some fans were present at each meet, the grapplers hope to find a place in the hearts of more JM students in the coming year. The more support, the better! Believe them: "It can be a very interesting sport!"
