## #OvercomingObstacles...to be victorious

Wrestling for JM is a lot more than showing up for practice every day; it's having the willingness to change one's lifestyle and work hard towards a common goal. It's the reward at the end that makes the team push through the ups and downs throughout the season. The wrestling team has held the All City Champ title for three years in a row now and there's no doubt that the team has the capability to remain the reigning champs for years to come, but what were the obstacles of the season? Tim Moore and Dontorrie Chatman shared their thoughts, "Mayo definitely is an obstacle. Last year we pushed pass them during the All City tournament, but suffered a defeat at Sections. This year will be different though." The main goal of the season was being victorious at Sections, and none of their losses mattered until then. Carter Williamson, Nathan Evan and Timmy Vanderwiel all agreed that, "It is very important that we work hard during the season, practice drill technique over and over again and not get hung up on our losses. We just need to figure out what we could've done better and move forward so we can come out on top at All City and Sections. The JM wrestling team knows exactly what they want to accomplish and knows just how to get there. The team is full of capabilities and will not let anything stand in the way of their goals.
